Hey Readers!

I know today you may have heard a TON of hype about a new product coming out next week called "Kajabi". I know I have, and I actually knew about it some time ago, but really was only given small details and tid bits of information and noticed on some of the COOL websites that it said "Powered by Kajabi" at the bottom...

Well, today a video came out that my friend Andy Jenkins actually narrates that tells you EXACTLY what it is, and I about fell out of my chair. We have been searching high and low for a complete solution to our information consolidation and we have found it.

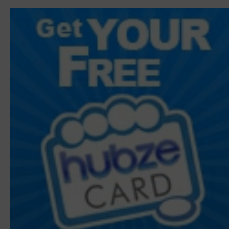

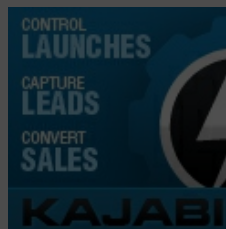

Unfortunately I was TOO BUSY when they approached me about being a BETA tester back several months ago because we were just getting into the FanPageEngine side of things...and dang do I wish I would have done it anyway!!!

So just **CLICK HERE** to watch the video presentation that talks about what it is. Seeing as how it is coming out NEXT week, I will probably be talking more about it over the next several days, but remember we also have OUR soft launch next week as well, so we may end up setting a part of that back one more week...for the public that is...not our customers!

So many of you have been asking how to create the “reveal tab” on your **facebook** pages and we have finally got it ready for you to use! Now you can ask for people to “LIKE” your page before you give them any information! This is a great way to help increase your page conversions. Watch the following video to see how to access it. If you have not yet purchased the Fan Page Engine platform, [CLICK HERE](#) to buy today! Packages start at only \$37!

Hello readers!

Well, it has almost officially launched. We are still working on some issues with the sign up/sign in process but we will have them hammered out for good over the course of next week. You are free to go sign up at www.MySocialTribe.com. I am going to be working hard over the next couple of months to integrate the **hubze** card and social site together so you can have one login across all sites. This will take time as we have almost ALL social sites integrated into the social platform now...

We also are having a special promotion on the site. If you are signed up, and have invited people to sign up...everyone who is there by September 30th, 2010 will get 1,000 points. These points are not like Who's Line Is It Anyway where they don't matter...they will

eventually be worth real \$\$\$ and the will also help you advance to new ranks!

So go sign up and make sure you introduce yourself! I look forward to seeing you there!

Have a great weekend!

David Foster

Hello readers!

I am very excited to announce a new course I will be coming out with over the next month. I have SO many people who express the same exact need and I want to help as many people as I can end the confusion and stop being overwhelmed...so please watch the following video to see what I intend to do and how this will be able to help YOU!

This will help you understand how to use all the sites out there to build a large fan base and get leads, prospects and friend requests on a daily basis. I get hundreds a day now and all I did was the same thing over and over again consistently and I want to show you Step by Step exactly how I did it.

I believe we all deserve a chance to be successful. I am on a mission to help 100 people do just that. I am going to start out working personally one on one with 25 people and go from there. Stay tuned for details on that over the following weeks!

OK so here is the video!
